The Editor-in-Chief of Eurasian Journal of Chemistry has decided to retract this article [1] because it has previously been published by Tulasi et al. (2022) [2]. Investigation by the Editorial Board revealed the article [1] contains the same research material as in the previously published article [2] without a proper citation. The Editorial Board considers this article to be redundant.

Corresponding author Lakshmi S. Tulasi partially confirmed the presence of the same material in both articles and was unable to provide a strong argument against retraction.
